About the Conference

The International Conference on Business Intelligence, Computational Mathematics, and Data Analytics (IBCD) 2024 is strategically positioned to navigate the rapidly evolving technological landscape. It offers a dynamic platform where both academic and industry experts can discuss crucial domains collectively. With a focus on applied intelligence across data science, mathematics, healthcare, cybersecurity, and business analytics, the conference will serve as a driving force for transforming theoretical breakthroughs into practical, real-world solutions with meaningful societal impact.
