PAPER . I -- Geomorphology

MARKS 85+15 CCE

Course contents:-

Unit - 1 : Introduction of Geomorphology- Definition, Meaning, Nature and Scope, History of development of Geomorphology, Recent trends.

Unit - 2 : Methods of study of landforms, Fundamental concepts – In Geomorphology, & Isostasy and morphogenetic regions.

Unit - 3 : Earth movements – Epeirogenic, Orogenic Structures with reference to evaluation of Himalaya, Plate tectonic, Seismicity, vulcanicity.

Unit - 4 : Exoqenetic process – weathering, and Masswasting, Denudation-Cycle of Erosion, Agents of erosion-fluvial, glacial, Aeolin, marine and Karst Processes.

Unit - 5 : Theories related to development of slope, Environmental change – Climatic change. Applied geomorphology- Hydro geomorphology, urban geomorphology, environmental geomorphology and its application in management of natural Hazards.

Suggested Readings:-

1. Chorley R.J.: . Spatial Analysis in Geomorphology Methuen, London, 1972
2. Davis, W.M. : Geographical Essays, Dover, New York, 1964.
3. Sharma, H.S. (ed.) : Perspectives in Geomorphology, Concept, New Delhi 1980
4. Thornbury.W.D. : Principles of Geomorphology, John W.i ley, New York, 1960.
5. Oliver, C.D. Weathering, Long man, London, 1979.
6. Garner, H.F. The Origin of Landscape - A Synthesis of Geomorphology, Oxforx University Press, London, 1974.
- 7- सिंह, सविन्द्र : भू आकृति विज्ञान, वसुंधरा प्रकाशन, मेरठ

SEMESTER . I

M.A. / M Sc.

PAPER . II -- Economic Geography

MARKS 85+15 CCE

Unit-1 Definition, Scope, content and recent trends in economic geography, relation of economic geography with economics and other branches of social sciences. location of economic activities and spatial organization, classification of economies. Sector of economy (primary, secondary and tertiary).

Unit-2 Factors of localization of economic activities: Physical, social, economic, and cultural, concepts and techniques of delimitations of agriculture region, crop combination and diversification, Von Thunen model and its modification.

Unit-3 Classification of industries: Resources based on foot-loose industries. Theories of industrial localization-Weber, Losch and Isard: case studies of selected industries-Iron and steel, Aluminum, Cotton textile, Sugar & Chemical.

Unit-4 Modes of transportation and transport cost: accessibility and connectivity, Typology of market, network in rural society, market system in urban economy, role of market in the development of trade and commerce.

Unit-5 Economic development of India. Regional disparities. Impact of green white and blue revolution Liberalization and globalization its economic impact. Economic regions of India.

Suggested Readings:-

Berry B.J.L. : Geography of market centres and retail distribution , prentice-hall New k 1967

Chatterjee, S.P. : Economic geography of Asia, Allied Book Agencies, Calcutta. 1984

PAPER . III -- Geography of India: Physical & Resources

MARKS 85+15 CCE

Unit . I

India : Characteristics of location, Unity and diversity. Geology major terrain units and their characteristics, drainage system and their functional significance to the country.

Unit . II

The Indian monsoon, regional and seasonal variation of weather, climatic division : Soil types . their characteristics, distribution and problems ; forest resources and their conservation.

Unit- III

Mineral and power resources . reserves, production and problems of conservation of major minerals.

Unit - IV

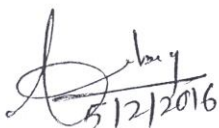

Water Resources , potential of water resources, their regional distribution and utilization . development and spatial pattern. Resource regions of India.

Unit . V

Population . number, distribution and growth with special reference to post-Independence period and its implication, Literacy and education . spatial patterns. Urbanization and characteristics of Indian cities.

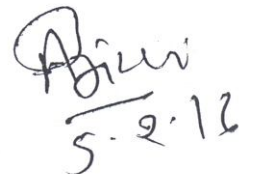

Suggested Readings :

1. Das P.K. : The Monsoon. The National book Trust of India, New Delhi.
2. Deshpande, C.D. : India . A Regional Interpretation, Northern Book Centre, New Delhi.
3. Mukerjee, A.B. & A. Azazuddin India . Culture, Society &

PAPER .- Climatology

MARKS 85+15 CCE

Unit I Nature and scope of climatology and its relationship with meteorology.
Composition, mass and structure of the atmosphere.

Unit II Insolation, heat balance of the earth, green house effect; vertical and horizontal distribution of temperature.

Unit III Atmospheric motion: Forces controlling motion of air vertical motion, local winds, jet stream. monsoon winds, El Nino , cyclones, General circulation in the atmosphere.

Unit IV Atmospheric moisture: Humidity, evaporation, condensation, precipitation: formation, types ,acid rain, world pattern of precipitation.

Unit V Climatic classification of Koppen, and Thornthwaite, Major Climates of the world- tropical , temperate, desert and mountain.

Suggested Readings:

Berry,B.J.L. and Chorley, P.J. Atmosphere weather and climate, routledge , London and new york, 1993

Critchfield , J.S. General climatology prentice Hall , India, 1993

PAPER . II

Resource Management

MARKS 85+15 CCE

Unit . I

Meaning, nature, Approaches and classification of resources, Theories of resources.

Unit . II

Resource appraisal . methods and techniques, land evaluation . concept and methods. Human Resources, Population pressure on land resources, Population policies

Unit . III

Resource allocation, concept, methods and techniques; Perspectives of resource development ; Conservation of resources : meaning, and approaches (special reference to water, forest, mineral & Soil.

Unit . IV

Concept of resource management, difference between resource development, conservation and management. status of common property resources : Kashmir, Katchh, India China boundary & India Bangladesh boundary disputes, Brahmaputra, Kosi, Kaveri & Narmada river disputes.

Unit . V

Use and misuse of resources : global and Indian scenario, resource development policies in India(water, forest, mineral & soil). Environmental perception in resource management, natural hazards and risk management; sustainable resource management. Uses of Gis & Remote sensing in resource management.
